a

abortion, threatened, prognostic tests in (*tip*), March, p. 218
acute stroke, management of, *March, p. 190
acyclovir, oral, for genital herpes (*tip*), January, p. 298
adenocarcinoma of the renal parenchyma, *May, p. 91
adolescence, frequent marijuana use in, *January, p. 201
adolescent stress and somatic complaints (*ed*), May, p. 88
adolescents
—chronic lymphadenopathy in children and, *May, p. 166
—laparoscopy in children and (*tip*), May, p. 229
adoption, family physician and, *February, p. 109
aging and the kidney: clinical implications, *April, p. 123
aging ear, *February, p. 225
AIDS
—in a heterosexual population (*tip*), February, p. 292
—pulmonary complications of (*tip*), March, p. 215
—retrovirus associated with (*tip*), March, p. 249
AIDS-related Kaposi's sarcoma, radiotherapy for (*tip*), April, p. 245
AIDS virus structure and disease transmission analyzed (*news*), April, p. 275
albuterol, vascular reactions to (*tip*), May, p. 216
alcohol alone may account for coronary disease risk in teetotalers (*med*), June, p. 187
alcohol withdrawal in burn patients (*tip*), March, p. 216
aldose reductase inhibitors for diabetic eye disease (*tip*), February, p. 300
allergic conjunctivitis, study compares eye drops for (*med*), May, p. 197
allergic reactions to streptokinase (*tip*), May, p. 222
alopecia, doxorubicin-induced, scalp hypothermia and (*tip*), February, p. 304
Alzheimer's disease, pathology of memory loss from (*tip*), February, p. 309
amiloride and hydrochlorothiazide, hyponatremia from (*tip*), January, p. 264
amniotic fluid volume, abnormal, significance of (*tip*), June, p. 228
amrinone is effective in the treatment of heart failure (*med*), March, p. 206
amyloid heart disease, echocardiography in (*tip*), May, p. 201
anaerobic infections, antibiotic therapy for, *April, p. 212
analgesia, nitrous oxide, for outpatient procedures, *January, p. 209
ancrod shows promise as a thrombolytic agent (*med*), May, p. 197
aneurysm, innominate artery, *March, p. 169
angiogenic factor in omental tissue (*tip*), June, p. 203
angiography, digital subtraction, injection site (*tip*), April, p. 248
angioplasty
—coronary (*tip*), May, p. 211
—transluminal, for aortitis syndrome (*tip*), February, p. 294
antibacterial agent, new, is effective against beta-lactamases (*med*), June, p. 183
antibiotic-associated pseudomembranous colitis, *May, p. 115
antibiotic therapy for anaerobic infections, *April, p. 212
antibiotics
—and povidone-iodine for prevention of wound sepsis (*tip*), March, p. 212
—prophylactic, in biliary surgery (*tip*), April, p. 270
antidepressants, treatment of pain with, *February, p. 181
antiepileptic therapy, discontinuing, *April, p. 177
antihistamine, new, relieves urticaria, without CNS effects (*med*), April, p. 219
antihypertensive therapy (*tip*), June, p. 192
antimicrobial prophylaxis in pediatric surgical patients (*tip*), May, p. 232
antishock trousers, cardiorespiratory effects of (*tip*), March, p. 223
aortic and renal artery operations, combined (*tip*), January, p. 255
aortitis syndrome, transluminal angioplasty for (*tip*), February, p. 294
aortoplasty, synthetic patch, for coarctation (*tip*), March, p. 244
arrhythmias, ventricular, after myocardial infarction (*tip*), January, p. 286
arterial complications of total knee replacement (*tip*), February, p. 291
arterial insufficiency, vertebrobasilar (*tip*), February, p. 285
arterial surgery, risk-benefit ratio in (*tip*), June, p. 221

antihistamine, new, relieves urticaria, without CNS effects (*med*), April, p. 219
antihypertensive therapy (*tip*), June, p. 192
antimicrobial prophylaxis in pediatric surgical patients (*tip*), May, p. 232
antishock trousers, cardiorespiratory effects of (*tip*), March, p. 223
aortic and renal artery operations, combined (*tip*), January, p. 255
aortitis syndrome, transluminal angioplasty for (*tip*), February, p. 294
aortoplasty, synthetic patch, for coarctation (*tip*), March, p. 244
arrhythmias, ventricular, after myocardial infarction (*tip*), January, p. 286
arterial complications of total knee replacement (*tip*), February, p. 291
arterial insufficiency, vertebrobasilar (*tip*), February, p. 285
arterial surgery, risk-benefit ratio in (*tip*), June, p. 221

arterial thromboembolism, intra-arterial streptokinase for (*tip*), February, p. 306
artery operations, combined aortic and renal (*tip*), January, p. 255
arthritis, septic, caused by *Clostridium perfringens*, *March, p. 135
asbestos exposure, mesothelioma from (*tip*), January, p. 298
ascites
—with hydrothorax, management of (*tip*), April, p. 267
—transudative vs. exudative (*tip*), January, p. 269
asthma
—acute, beta$_2$ agonists for, *May, p. 184
—childhood, cromolyn vs. theophylline for (*tip*), June, p. 218
—cromolyn provides good control of (*med*), April, p. 219
—prodromal itching in (*tip*), February, p. 296
asthmatic children, steroid therapy and cataracts in (*tip*), January, p. 250
atrial fibrillation and occult hyperthyroidism (*tip*), April, p. 268
atrial natriuretic factor (*tip*), January, p. 259
attention deficit disorder, efficacy of megavitamin therapy for (*tip*), February, p. 275
autopsy, reviving (*ed*), June, p. 87

b

back pain, low, evaluation of (*tip*), January, p. 299
bacteremia
—in a geriatric population (*tip*), March, p. 216
—*Staphylococcus epidermidis*, in neonates (*tip*), June p. 197
bacterial infection, neutrophil changes in (*tip*), June, p. 198
barium meal, double-contrast, vs. endoscopy (*tip*), June, p. 193
basilar pneumothorax in the supine patient, *June, p. 127
bathtub-related electrocution (*tip*), March, p. 212
BCG vaccination, local complications of (*tip*), June, p. 225
behavioral health risks (*tip*), April, p. 259
beta$_2$ agonists for acute asthma, *May, p. 184
beta blockers
—epinephrine with, hazards of (*tip*), May, p. 230
—with intrinsic sympathomimetic activity, *January, p. 115
biliary obstruction, diagnostic imaging in (*tip*), June, p. 224
biliary surgery, prophylactic antibiotics in (*tip*), April, p. 270
biopsy
—for diagnosis of melanoma, pitfalls in (*tip*), March, p. 211
—liver (*tip*), April, p. 238
—outpatient needle, of the lung (*tip*), January, p. 249
—rectal, accuracy of (*tip*), February, p. 291
—value of, in inflammatory skin diseases, *January, p. 197
bites, dog, facial injuries from (*tip*), January, p. 239
bleeding, variceal, selective and nonselective shunts for (*tip*), February, p. 298
bleeding time, prolonged (*tip*), April, p. 240
blindness, legal, in the over-65 age group (*info pl*), March, p. 256
blood pressure, elevation of, by TRH (*tip*), January, p. 270
blood products, transmission of hepatitis A by (*tip*), March, p. 235
bone marrow transplantation, pulmonary complications of (*tip*), May, p. 220
bowel, irritable, syndrome: treatment update, *January, p. 191
bowel disease, inflammatory, immunocompetence and (*tip*), March, p. 218
brain tumors, epidemiology of, enters a new era (*news*), May, p. 243
breast cancer
—carries increased risk of colon cancer (*med*), January, p. 236
—early diagnosis of (*tip*), January, p. 252
—and estrogen use (*tip*), February, p. 282
—radiation-induced (*tip*), January, p. 298
breast disorders in nursing women (*tip*), February, p. 317
breast feeding, maternal employment and (*tip*), June, p. 209
bronchiolitis and subsequent wheezing (*tip*), January, p. 266
bronchoscopy, fiberoptic (*tip*), April, p. 229
bronchospasm from sulfites (*tip*), February, p. 306
bronchus, mucoid impaction of, *April, p. 119
Burkitt's lymphoma, *May, p. 153
burn patients, alcohol withdrawal in (*tip*), March, p. 216
burns, chemical skin, *June, p. 149

c

calculi, urinary tract, in pregnancy, *June, p. 143
cancer
—breast, carries increased risk of colon cancer (*med*), January, p. 236
—breast, early diagnosis of (*tip*), January, p. 252
—breast, and estrogen use (*tip*), February, p. 282
—breast, radiation-induced (*tip*), January, p. 299
—colon, ovarian metastases from (*tip*), June, p. 196
—colorectal, resection of hepatic metastases from (*tip*), January, p. 269
—colorectal, screening for (*tip*), May, p. 236
—head and neck, advanced, treatment of (*tip*), May, p. 224
—lung, mediastinal lymph node size in (*tip*), June, p. 217
—prostatic, hypophysectomy for (*tip*), January, p. 256
—prostatic, osteoblastic lesions in (*tip*), January, p. 240
—rectal, staging of, with CT scanning (*tip*), April, p. 267

—treatment of, hyperthermia may be a fourth modality in (*news*), March, p. 266
cancer chemotherapy, immunization during (*tip*), February, p. 296
cancer patients
—lung, answering the relatives of (*tip*), June, p. 212
—sexuality in, *January, p. 153
Candida infection, systemic, in infants (*tip*), June, p. 204
carcinoma
—endometrial, screening for (*tip*), February, p. 269
—hepatocellular (*tip*), January, p. 264
cardiac emergencies, external pacemaker shows promise for (*med*), February, p. 265
cardiac examination in children, *April, p. 105
cardiac rehabilitation (*tip*), January, p. 300
cardiac surgery, mannitol reperfusion after (*tip*), June, p. 203
cardiac valve replacement, repeat (*tip*), March, p. 250
cardiogenic cerebral emboli (*tip*), June, p. 205
cardiology, nuclear, *May, p. 157
cardiomyopathy, idiopathic restrictive (*tip*), March, p. 211
cardiophrenic angle nodes in lymphoma (*tip*), April, p. 224
cardiorespiratory effects of antishock trousers (*tip*), March, p. 223
cataracts, steroid therapy and, in asthmatic children (*tip*), January, p. 250
caustic substances, esophageal injury from (*tip*), March, p. 144
cerebral emboli, cardiogenic (*tip*), June, p. 205
cervical lymph node metastases, treatment of (*tip*), June, p. 204
cervicitis, chlamydial (*tip*), March, p. 232
charcoal, oral, for theophylline overdose (*tip*), February, p. 269
chemical skin burns, *June, p. 149
chemotherapeutic agents, extravasation of, *March, p. 147
chemotherapy
—cancer, immunization during (*tip*), February, p. 296
—for hairy cell leukemia (*tip*), January, p. 249
—short-course, for tuberculosis (*tip*), April, p. 246
chest wall tenderness in pulmonary embolism (*tip*), June, p. 198
chest x-ray, routine, end of (*ed*), April, p. 100
childhood, sudden death in, risk factors for, are identified (*med*), May, p. 193
childhood headaches, classifying, in temporal patterns may be useful (*med*), January, p. 233
children
—cardiac examination in, *April, p. 105
—chronic cough in, woodburning stoves may cause (*med*), June, p. 183
—chronic lymphadenopathy in, and adolescents, *May, p. 166
—empyema in (*tip*), January, p. 260
—fever and petechiae in, etiology of (*tip*), February, p. 286
—genital HSV infection in (*tip*), May, p. 202
—helping, cope with death, *March, p. 175
—laparoscopy in, and adolescents (*tip*), May, p. 229
chlamydial cervicitis (*tip*), March, p. 232
cholangiography, percutaneous, and acute renal failure (*tip*), January, p. 263
cholesterol, high, survey shows need for awareness of (*med*), April, p. 220
chronic complainer, coping with, *February, p. 211
cirrhosis, asymptomatic, covert encephalopathy is common in (*med*), January, p. 234
Clostridium perfringens, septic arthritis caused by, *March, p. 135
CNS malignancies, CSF monoclonal antibodies in (*tip*), January, p. 252
coagulopathy and neonatal intracranial hemorrhage (*tip*), February, p. 300
coarctation, synthetic patch aortoplasty for (*tip*), March, p. 244
cocaine, on-the-job use of, is on the rise (*news*), May, p. 244
cocaine habit, *February, p. 173
cocaine-related death (*tip*), May, p. 234
colitis, pseudomembranous, antibiotic-associated, *May, p. 115
collagenase nucleolysis, favorable results are reported with (*med*), February, p. 265
colon cancer
—breast cancer carries increased risk of (*med*), January, p. 236
—ovarian metastases from (*tip*), June, p. 196.
colonic polyps, skin tags may serve as a marker for (*med*), January, p. 234
colonoscopy in treatment of Ogilvie's syndrome (*tip*), April, p. 259
colorectal cancer
—resection of hepatic metastases from (*tip*), January, p. 269
—screening for (*tip*), May, p. 236
coma, diabetic, hyperosmolar nonketotic (*info pl*), March, p. 256
complainer, chronic, coping with, *February, p. 211
compliance, patient, *June, p. 93
compromised host, infection in (*tip*), January, p. 276
congenital complete heart block, *January, p. 183
conjunctivitis, allergic, study compares eye drops for (*med*), May, p. 197
corneal foreign bodies, management of, *February, p. 149
coronary angioplasty (*tip*), May, p. 211
coronary artery disease, physical training in patients with (*tip*), May, p. 203
coronary bypass surgery, urethral stricture after (*tip*), May, p. 235
coronary disease, fluoroscopy may be useful in screening for (*med*), April, p. 220

coronary disease risk in teetotalers, alcohol alone may account for (*med*), June, p. 187
cough, chronic, in children, woodburning stoves may cause (*med*), June, p. 183
cough and cold symptoms, drugs for, in hypertensive patients, *March, p. 183
cough tic, psychogenic (*tip*), January, p. 292
counseling, postinfarction, sex appears to be a neglected topic in (*med*), March, p. 206
creatinine levels, serum, during fasting (*tip*), March, p. 238
cromolyn
—provides good control of asthma (*med*), April, p. 219
—vs. theophylline for childhood asthma (*tip*), June, p. 218
cryosurgery, endocardial, stops ventricular tachycardia (*med*), June, p. 187
cryptorchidism, fertility prospects in (*tip*), May, p. 206
cryptosporidiosis in an urban community (*tip*), April, p. 254
crystal deposition in asymptomatic gout (*tip*), April, p. 223
CT scanning, staging of rectal cancer with (*tip*), April, p. 267
cytomegalovirus infection in pregnancy (*tip*), May, p. 230

d

death
—helping children cope with, *March, p. 175
—after myocardial infarction, psychosocial factors and (*ed*), February, p. 104
—of a parent, normal grief in child at, investigators look for (*news*), April, p. 280
—sudden, in childhood, risk factors for, are identified (*med*), May, p. 193
defibrillator designed for lay use is being tested (*med*), May, p. 193
delta agent and fulminant viral hepatitis (*tip*), January, p. 275
depression
—and lymphocyte function (*tip*), January, p. 240
—masked, more than 15 million Americans may have (*news*), February, p. 328
diabetic coma, hyperosmolar nonketotic (*info pl*), March, p. 256
diabetic eye disease, aldose reductase inhibitors for (*tip*), February, p. 300
diabetic ketoacidosis, recurrent, family stress and (*tip*), January, p. 275
dialysis treatment options (*tip*), June, p. 221
diarrhea
—from dietetic candy (*tip*), May, p. 214
—running induces, in many long-distance runners (*med*), January, p. 234
—traveler's, NIH panel develops guidelines to treat (*news*), May, p. 246
diets, vegan (*ed*), February, p. 105
digital subtraction angiography injection site (*tip*), April, p. 248
digitalis efficacy, reevaluation of (*tip*), March, p. 251
digoxin, maintenance, withdrawing (*tip*), February, p. 282
disopyramide, pyridostigmine blocks anticholinergic effects of (*med*), June, p. 187
dog bites, facial injuries from (*tip*), January, p. 239
doxorubicin-induced alopecia, scalp hypothermia and (*tip*), February, p. 304
drug interactions, nonprescription drugs and (*ed*), April, p. 97
drug therapy for sexually transmitted diseases, *February, p. 256
drugs
—for cough and cold symptoms in hypertensive patients, *March, p. 183
—nonprescription, and drug interactions (*ed*), April, p. 97

e

ear, aging, *February, p. 225
echocardiography in amyloid heart disease (*tip*), May, p. 201
ectopic parathyroid glands, localization of (*tip*), March, p. 232
ectopic pregnancy, diagnosis of, *February, p. 201
elderly
—are at high risk for nosocomial infections (*med*), May, p. 197
—pneumonia in: a nursing home perspective, *February, p. 131
—treatment of hypertension in (*tip*), April, p. 235
elderly patient
—comprehensive assessment of, *May, p. 105
—dependent, home and nursing home care of, *January, p. 163
—special housing needs of, *June, p. 121
electrocution, bathtub-related (*tip*), March, p. 212
emboli, cardiogenic cerebral (*tip*), June, p. 205
embolism, pulmonary, chest wall tenderness in (*tip*), June, p. 198
embolization, coil, of vascular anomalies (*tip*), April, p. 229
emphysema, pulmonary interstitial, *January, p. 137
empyema in children (*tip*), January, p. 260
encephalopathy, covert, is common in asymptomatic cirrhosis (*med*), January, p. 234
endometrial carcinoma, screening for (*tip*), February, p. 269
endoscopy, double-contrast barium meal vs. (*tip*), June, p. 193
entrapment neuropathies of the upper extremity, *January, p. 123
enuresis, nocturnal: a review of treatment approaches, *March, p. 141
epileptic seizures in adults, management of, *June, p. 162
epinephrine with beta blockers, hazards of (*tip*), May, p. 230
esophageal injury from caustic substances (*tip*), March, p. 255
esophageal motility, effects of nifedipine on (*tip*), June, p. 209
esophagitis plays a role in hyperemesis gravidarum (*med*), January, p. 233

estrogen use, breast cancer and (*tip*), February, p. 282
ethanol depresses left ventricular contractility (*med*), February, p. 265
euthyroid sick syndrome, *February, p. 236
exercise
—and host-defense factors (*tip*), June, p. 196
—isometric, myocardial dysfunction during (*tip*), March, p. 224
extravasation of chemotherapeutic agents, *March, p. 147
eye disease, diabetic, aldose reductase inhibitors for (*tip*), February, p. 300
eye drops for allergic conjuctivitis, study compares (*med*), May, p. 197

f

facial injuries from dog bites (*tip*), January, p. 239
fasting, serum creatinine levels during (*tip*), March, p. 238
fertility prospects in cryptorchidism (*tip*), May, p. 206
fertility regulator, researcher describes (*news*), March, p. 262
fever
—and petechiae in children, etiology of (*tip*), February, p. 286
—subjective assessment of (*tip*), May, p. 236
fiberoptic bronchoscopy (*tip*), April, p. 229
fibrillation, atrial, and occult hyperthyroidism (*tip*), April, p. 268
firefighting, routine, may pose risk of lung damage (*med*), June, p. 183
fistula, perilymphatic, hearing loss due to (*info pl*), March, p. 256
flatulence: pathophysiology and treatment, *April, p. 198
fluoroscopy may be useful in screening for coronary disease (*med*), April, p. 220
foreign bodies, corneal, management of, *February, p. 149
fractures, stress, diagnosis of (*tip*), February, p. 270
fungal infections, skin-surface touch print for diagnosing, *April, p. 189

g

gallbladder disease induced by parenteral nutrition (*tip*), February, p. 310
gastric sarcoidosis (*tip*), June, p. 191
gastrointestinal telangiectasias, hemodialysis and (*tip*), May, p. 234
genital herpes
—oral acyclovir for (*tip*), January, p. 298
—prevalence of, is low in college students (*med*), April, p. 219
genital HSV infection in children (*tip*), May, p. 202
geriatric inpatients, psychiatric consultation in (*tip*), February, p. 294
geriatric population, bacteremia in (*tip*), March, p. 216
glaucoma, pigmentary, is successfully treated with pilocarpine therapy (*news*), January, p. 316
glucose infusion, maternal, neonatal hypoglycemia after (*tip*), January, p. 304
gout, asymptomatic, crystal deposition in (*tip*), April, p. 223
graft failure, prosthetic, mechanisms of (*tip*), June, p. 205
grief, normal, in child at the death of a parent, investigators look for (*news*), April, p. 280
growth, catch-up, in low-birth-weight infants (*tip*), January, p. 239
gypsy moth rash (*tip*), February, p. 314

h

H. influenzae infection, CDC recommends early vaccination for (*news*), June, p. 234
hairy cell leukemia, chemotherapy for (*tip*), January, p. 249
head and neck cancer, treatment of (*tip*), May, p. 224
headaches, childhood, classifying, in temporal patterns may be useful (*med*), January, p. 233
hearing loss due to perilymphatic fistula (*info pl*), March, p. 256
heart block, complete, congenital, *January, p. 183
heart disease, amyloid, echocardiography in (*tip*), May, p. 201
heart failure
—amrinone is effective in the treatment of (*med*), March, p. 206
—vasodilator and inotropic therapy for, *June, p. 177
hematuria, red cell morphology in (*tip*), May, p. 202
hemodialysis and gastrointestinal telangiectasias (*tip*), May, p. 234
hemorrhage
—neonatal intracranial, coagulopathy and (*tip*), February, p. 300
—pulmonary, in patients with SLE (*tip*), February, p. 269
hemorrhoids, new method for treating, is reported (*med*), January, p. 236
hepatic injury, minocycline-induced (*tip*), February, p. 278
hepatic metastases, resection of, from colorectal cancer (*tip*), January, p. 269
hepatitis
—fulminant viral, delta agent and (*tip*), January, p. 275
—ranitidine-associated (*tip*), May, p. 221
hepatitis A, transmission of, by blood products (*tip*), March, p. 235
hepatocellular carcinoma (*tip*), January, p. 264
herpes
—genital, oral acyclovir for (*tip*), January, p. 298
—genital, prevalence of, is low in college students (*med*), April, p. 219
high altitudes, osmoregulation at (*tip*), March, p. 243
hormonal status after trauma (*tip*), June, p. 217
house calls: current status and rationale, *April, p. 169
housing needs, special, of the elderly patient, *June, p. 121

HSV infection
—disseminated, in pregnancy (*tip*), May, p. 201
—genital, in children (*tip*), May, p. 202
hydatidiform moles, *May, p. 123
hydrochlorothiazide, hyponatremia from amiloride and (*tip*), January, p. 264
hydrothorax, management of ascites with (*tip*), April, p. 267
hyperactivity and learning disabilities (*tip*), June, p. 197
hyperemesis gravidarum, esophagitis plays a role in (*med*), January, p. 233
hyperosmolar nonketotic diabetic coma (*info pl*), March, p. 256
hypertension
—in the elderly, treatment of (*tip*), April, p. 235
—pulmonary, primary (*tip*), January, p. 260
hypertensive emergencies, nifedipine is effective in (*med*), April, p. 220
hypertensive patients, drugs for cough and cold symptoms in, *March, p. 183
hyperthermia may be a fourth modality in treatment of cancer (*news*), March, p. 266
hyperthyroidism, occult, atrial fibrillation and (*tip*), April, p. 268
hypertriglyceridemia, treatment of (*ed*), March, p. 94
hypoglycemia, neonatal, after maternal glucose infusion (*tip*), January, p. 304
hyponatremia from amiloride and hydrochlorothiazide (*tip*), January, p. 264
hypophysectomy for prostatic cancer (*tip*), January, p. 256
hysterectomy specimens, pathologic findings in (*tip*), March, p. 235

Ogilvie's syndrome, colonoscopy in treatment of (*tip*), April, p. 259
oleothorax (*tip*), January, p. 256
omental tissue, angiogenic factor in (*tip*), June, p. 203
orotracheal tubes in newborns, complications of (*tip*), May, p. 222
osmoregulation at high altitudes (*tip*), March, p. 243
osteoblastic lesions in prostatic cancer (*tip*), January, p. 240
osteonecrosis of the knee, spontaneous, *April, p. 151
osteoporosis, primary, *January, p. 216
otitis media, developments in diagnosing and treating, *March, p. 155
ovary, polycystic, syndrome, *April, p. 159
overdoses, *April, p. 141

P

pacemaker(s)
—external, shows promise for cardiac emergencies (*med*), February, p. 265
—single-chamber, are superior to dual-chamber devices (*med*), May, p. 193
pain, treatment of, with antidepressants, *February, p. 181
pancreatic pseudocysts, infected (*tip*), April, p. 238
papules, pearly penile (*tip*), May, p. 235
parathyroid glands, ectopic, localization of (*tip*), March, p. 232
parenteral nutrition, gallbladder disease induced by (*tip*), February, p. 310
parietal cell versus truncal vagotomy (*tip*), February, p. 302
patient compliance, *June, p. 93
PCBs, clinical toxicology of, *March, p. 202
pediatric surgical patients, antimicrobial prophylaxis in (*tip*), May, p. 232
pelvic inflammatory disease, salpingitis and, *January, p. 143
penile papules, pearly (*tip*), May p. 235
perilymphatic fistula, hearing loss due to (*info pl*), March, p. 256
peripheral vascular disease (*tip*), February, p. 309
peroneal nerve lesions, localizing, *February, p. 189
petechiae, etiology of fever and, in children (*tip*), February, p. 286
pilocarpine therapy, pigmentary glaucoma is successfully treated with (*news*), January, p. 316
pneumococcal antigen, rapid detection of (*tip*), June, p. 212
pneumonia in the elderly: a nursing home perspective, *February, p. 131
pneumothorax, basilar, in the supine patient, *June, p. 127
poison warning stickers (*tip*), June, p. 191
polycystic ovary syndrome, *April, p. 159
polyps, colonic, skin tags may serve as a marker for (*med*), January, p. 234
postinfarction counseling, sex appears to be a neglected topic in (*med*), March, p. 206
povidone-iodine, antibiotics and, for prevention of wound sepsis (*tip*), March, p. 212
pregnancy
—cytomegalovirus infection in (*tip*), May, p. 230
—ectopic, diagnosis of, *February, p. 201
—HSV infection, disseminated, in (*tip*), May p. 201
—urinary tract calculi in, *June, p. 143
pretibial myxedema, *May, p. 135
prodromal itching in asthma (*tip*), February, p. 296
prolactin, testosterone and, levels in runners (*tip*), February, p. 286
prophylactic antibiotics in biliary surgery (*tip*), April, p. 270
prostacyclin in nitroglycerin action, role of (*tip*), April, p. 236
prostatic cancer
—hypophysectomy for (*tip*), January, p. 256
—osteoblastic lesions in (*tip*), January, p. 240
prosthetic graft failure, mechanisms of (*tip*), June, p. 205
pseudocysts, pancreatic, infected (*tip*), April, p. 238
pseudomembranous colitis, antibiotic-associated, *May, p. 115
psychiatric consultation in geriatric inpatients (*tip*), February, p. 294
psychotherapy, medical, *January, p. 173
pulmonary cavitation due to *Mycobacterium kansasii* (*tip*), March, p. 246
pulmonary complications
—of AIDS (*tip*), March, p. 215
—of bone marrow transplantation (*tip*), May, p. 220
—postoperative (*tip*), June, p. 224
pulmonary embolism, chest wall tenderness in (*tip*), June, p. 198
pulmonary hemorrhage in patients with SLE (*tip*), February, p. 269
pulmonary hypertension, primary (*tip*), January, p. 260
pulmonary interstitial emphysema, *January, p. 137
pulmonary tuberculosis, current patterns of, *June, p. 113

purpura, thrombotic thrombocytopenic, *February, p. 141
pyomyositis (*tip*), April, p. 274
pyridostigmine blocks anticholinergic effects of disopyramide (*med*), June, p. 187

q

quadriplegia from trampoline-related injury (*tip*), June, p. 222

r

radiation-induced breast cancer (*tip*), January, p. 299
radiotherapy for AIDS-related Kaposi's sarcoma (*tip*), April, p. 245
ranitidine-associated hepatitis (*tip*), May, p. 221
rash, gypsy moth (*tip*), February, p. 314
rectal biopsy, accuracy of (*tip*), February, p. 291
rectal cancer, staging of, with CT scanning (*tip*), April, p. 267
red cell morphology in hematuria (*tip*), May, p. 202
reflux, vesicoureteral (*tip*), March, p. 223
refugees from Southeast Asia, treatment of, presents new challenges (*news*), January, p. 315
rehabilitation, cardiac (*tip*), January, p. 300
renal artery, combined aortic and, operations (*tip*), January, p. 255
renal failure, acute, percutaneous cholangiography and (*tip*), January, p. 263
renal parenchyma, adenocarcinoma of, *May, p. 91
renovascular lesions, thromboxane synthesis in (*tip*), January, p. 286
respiratory syncytial virus infection (*tip*), May, p. 211
retrovirus associated with AIDS (*tip*), March, p. 249
rifampin for nontuberculous infection (*tip*), February, p. 318
rubella control (*tip*), February, p. 302
runners
—long-distance, running induces diarrhea in many (*med*), January, p. 234
—testosterone and prolactin levels in (*tip*), February, p. 286

s

sacroiliitis associated with SLE (*tip*), March, p. 250
salpingitis and pelvic inflammatory disease, *January, p. 143
sarcoidosis, gastric (*tip*), June, p. 191
scalp hypothermia and doxorubicin-induced alopecia (*tip*), February, p. 304
seizures
—epileptic, in adults, management of, *June, p. 162
—prognostic indicators for control of (*tip*), June, p. 193
seminoma, metastatic, VAB-6 regimen for (*tip*), January, p. 259
sepsis
—intra-abdominal, laparotomy for (*tip*), January, p. 266
—wound, antibiotics and povidone-iodine for prevention of (*tip*), March, p. 212
septic arthritis caused by *Clostridium perfringens*, *March, p. 135
septicemia, *Staphylococcus epidermidis* (*tip*), April, p. 253
sex appears to be a neglected topic in postinfarction counseling (*med*), March, p. 206
sexuality in cancer patients, *January, p. 153
sexually transmitted diseases, drug therapy for, *February, p. 256
shunts for variceal bleeding, selective and nonselective (*tip*), February, p. 298
sick sinus syndrome, *March, p. 117
sigmoidoscopy, video, second-generation, *March, p. 127
skin diseases, inflammatory, value of biopsy in, *January, p. 197
skin-surface touch print for diagnosing fungal infection, *April, p. 189
skin tags may serve as a marker for colonic polyps (*med*), January, p. 234
SLE
—laryngeal complications of (*tip*), May, p. 214
—pulmonary hemorrhage in patients with (*tip*), February, p. 269
—sacroiliitis associated with (*tip*), March, p. 250
smoking cessation, new studies show the necessity for (*news*), February, p. 323
somatic complaints, adolescent stress and (*ed*), May, p. 88
splenectomy, severe infection after (*tip*), February, p. 275
Staphylococcus epidermidis bacteremia in neonates (*tip*), June, p. 197
Staphylococcus epidermidis septicemia (*tip*), April, p. 253
steroid therapy and cataracts in asthmatic children (*tip*), January, p. 250
stones, urinary tract, *February, p. 219
streptokinase
—allergic reaction to (*tip*), May, p. 222
—intra-arterial, for arterial thromboembolism (*tip*), February, p. 306
—for myocardial infarction (*tip*), April, p. 223
stress
—adolescent, and somatic complaints (*ed*), May, p. 88
—family, and recurrent diabetic ketoacidosis (*tip*), January, p. 275
stress fractures, diagnosis of (*tip*), February, p. 270
stroke, acute, management of, *March, p. 190
subendocardial infarction, significance of, *February, p. 123
sudden death in childhood, risk factors for, are identified (*med*), May, p. 193
sulfites, bronchospasm from (*tip*), February, p. 306
sulindac, toxic neurologic effects of (*tip*), April, p. 270

surgical patients, lymphocyte function in (*tip*), May, p. 224
systemic drugs, ocular toxicity of, *January, p. 226

t

telangiectasias, gastrointestinal, hemodialysis and (*tip*), May, p. 234
testis, undescended, evaluating, *June, p. 133
testosterone and prolactin levels in runners (*tip*), February, p. 286
theophylline, cromolyn vs., for childhood asthma (*tip*), June, p. 218
theophylline overdose, oral charcoal for (*tip*), February, p. 269
thrombocytopenic purpura, thrombotic, *February, p. 141
thromboembolism, arterial, intra-arterial streptokinase for (*tip*), February, p. 306
thrombolytic agent, ancrod shows promise as (*med*), May, p. 197
thromboxane synthesis in renovascular lesions (*tip*), January, p. 286
tic, cough, psychogenic (*tip*), January, p. 292
toothpick-related injury (*tip*), April, p. 230
toxicology, clinical, of PCBs, *March, p. 202
trampoline-related injury, quadriplegia from (*tip*), June, p. 222
transluminal angioplasty for aortitis syndrome (*tip*), February, p. 294
transplantation, bone marrow, pulmonary complications of (*tip*), May, p. 220
trauma, hormonal status after (*tip*), June, p. 217
traveler's diarrhea, NIH panel develops guidelines to treat (*news*), May, p. 246
TRH, elevation of blood pressure by (*tip*), January, p. 270
trigeminal neuralgia, surgical treatment of, *May, p. 143
truncal vagotomy, parietal cell vs. (*tip*), February, p. 301
tuberculosis
—pulmonary, current patterns of, *June, p. 113
—short-course chemotherapy for (*tip*), April, p. 246
tumor(s)
—brain, epidemiology of, enters a new era (*news*), May, p. 243
—imaging of, with monoclonal antibodies (*tip*), June, p. 213

u

umbilical cord prolapse (*tip*), May, p. 216
upper extremity, entrapment neuropathies of, *January, p. 123
urethral overdilatation for urinary tract symptoms (*tip*), March, p. 226
urethral stricture after coronary bypass surgery (*tip*), May, p. 235
urinalysis: the physician's responsibility, *January, p. 103
urinary tract calculi in pregnancy, *June, p. 143
urinary tract stones, *February, p. 219
urinary tract symptoms, urethral overdilatation for (*tip*), March, p. 226
urticaria, new antihistamine without CNS effects relieves (*med*), April, p. 219

v

VAB-6 regimen for metastatic seminoma (*tip*), January, p. 259
vaccination
—BCG, local complications of (*tip*), June, p. 225
—for *H. influenzae* infection, CDC recommends early (*news*), June, p. 234
vaccine, measles, reimmunization with (*tip*), April, p. 230
vaginitis, nonspecific, single-dose therapy for (*tip*), April, p. 236
vagotomy, parietal cell vs. truncal (*tip*), February, p. 302
variceal bleeding, selective and nonselective shunts for (*tip*), February, p. 298
vascular anomalies, coil embolization of (*tip*), April, p. 229
vascular disease, peripheral (*tip*), February, p. 309
vascular reactions to albuterol (*tip*), May, p. 216
vasodilator and inotropic therapy for heart failure, *June, p. 177
vegan diets (*ed*), February, p. 105
venereal disease, nonsexual transmission of (*tip*), March, p. 226
ventricular arrhythmias, after myocardial infarction (*tip*), January, p. 286
ventricular contractility, left, ethanol depresses (*med*), February, p. 265
ventricular tachycardia, endocardial cryosurgery stops (*med*), June, p. 187
vertebrobasilar arterial insufficiency (*tip*), February, p. 285
vesicoureteral reflux (*tip*), March, p. 223
video sigmoidoscopy, second-generation, *March, p. 127
vomiting, chronic, evaluation of (*tip*), April, p. 248

w

weight control (*ed*), January, p. 96
wheezing, subsequent, bronchiolitis and (*tip*), January, p. 266
woodburning stoves may cause chronic cough in children (*med*), June, p. 183
wound sepsis, antibiotics and povidone-iodine for prevention of (*tip*), March, p. 212

x
